School management

School Education Goals

"Highly motivated, nurturing people who are willing to open up their own lives and the future of society."

We want to Cultivate

- A person who has a personality that is harmonious in knowledge, virtue, and body.
- A person who has acquired the knowledge necessary for a new era and the ability to enhance the future.
- Those who can continue to learn independently throughout their lives and contribute to local and global societies.

Qualities and Abilities we want to Cultivate

- Future pioneering power is a power needed for the new age.
Individuals will foster qualities and abilities necessary to play a role in society while realizing a unique way of life and creating new knowledge and value.
Future pioneering power consists of cultural ability, thinking power, expression, collaboration power, self-reflection, and willpower.

Career Guidance

Thinking about the future

Comprehensive inquiry time

This is a time for each individual to take the initiative (Active), think carefully (Thinking), and create themselves (Creative).

Through various experiences, you can learn how high school education is being utilized in the future in both college and society.

In addition, you will acquire the power to open up the future of your life and society (future pioneering power) by associating and utilizing the knowledge you have learned at Kasaoka Senior High School to discover and solve problems.

1 Career quest ~Thinking about your future~

There are many things to experience, such as actively going out of school and interacting with member of the academic community and future potential employers. These experiences include, university visits, company visits, career training, and a high school introductory course. These opportunities will encourage individuals to take into consideration their current and future way of life, by integration what they have learned from these experiences into their daily lives in order to reach their future goals.

2 Exploring issues ~Thinking about the future of society~

● 「Chiikigaku」 [Thinking about local issues]

Explore the area and learn the skills needed for exploration activities.

Field work

Poster session

● 「Theme search」 [Thinking about global issues]

Know the world from the region and work on exploring freely set themes.
